

E Khaja

Presenter:
Suman Khatri
And
Chitra Bahadur Thapa

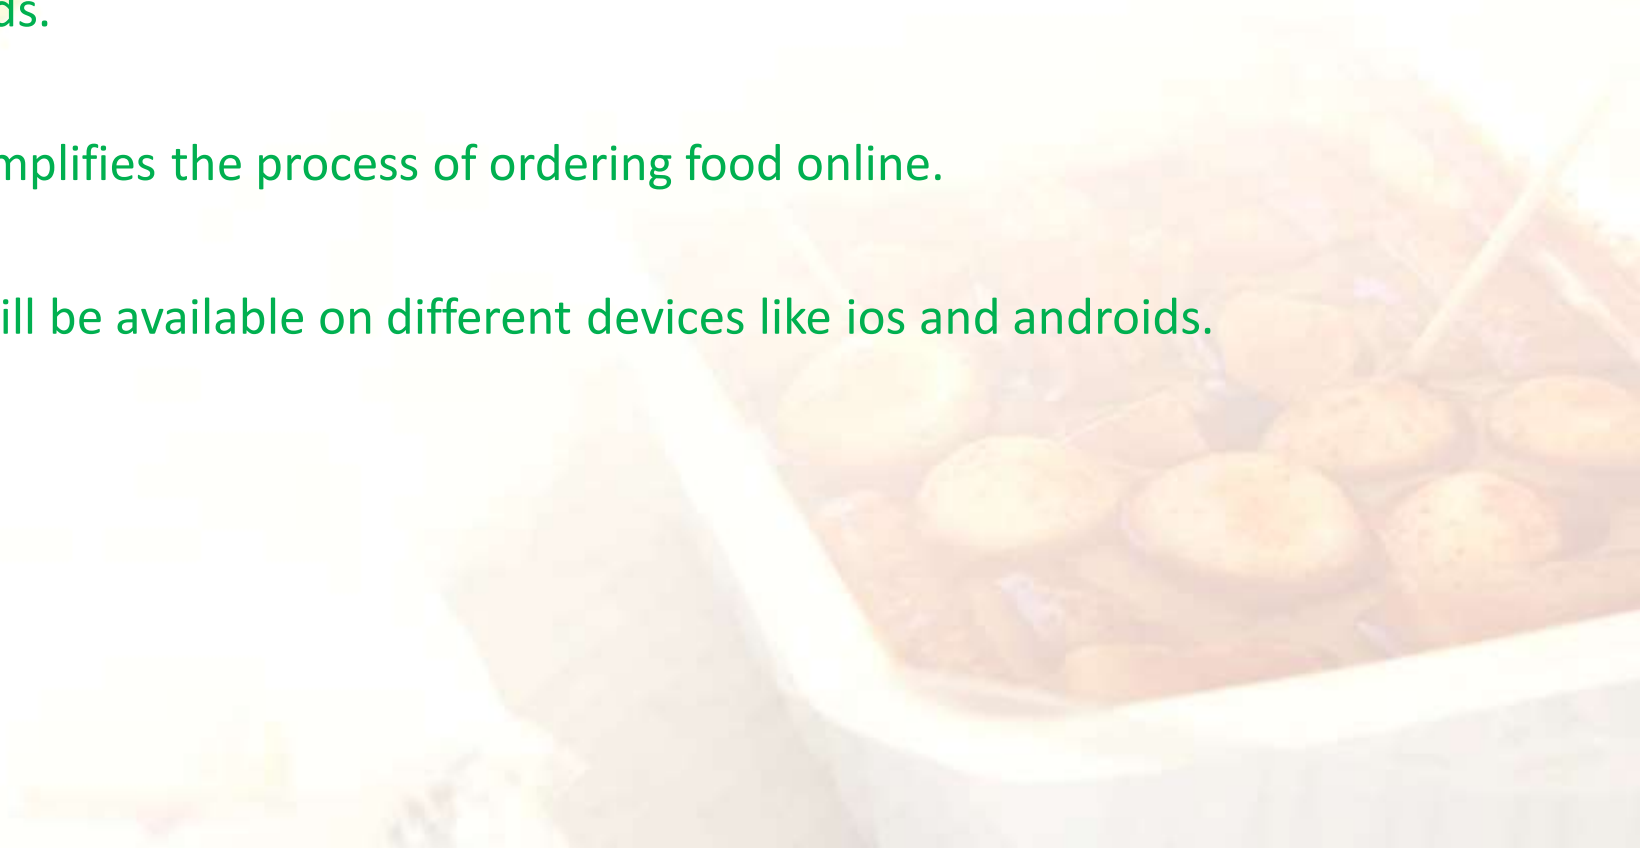

The background features a dark gray field with several overlapping elements: a green diamond shape in the upper left, an orange circle in the upper right, and two diagonal strips of food. The left strip shows golden-brown, saucy fried items, while the right strip shows a close-up of a spicy, red-sauced dish with meat and vegetables.

Mid Term Defense

INTRODUCTION

1. E khaja is a food ordering system that aims to provide customers with a convenient way to order food online.
2. It allows users to browse through a variety of food and order their favourite foods.
3. It simplifies the process of ordering food online.
4. It will be available on different devices like ios and androids.

Problems Statement

1. Poor user Experience or UI:

1. Slow Delivery:

3. Inaccurate Order Fulfillment:

Objectives

1. To provide customers with a fast and convenient method of ordering food.
1. To provide user-friendly and attractive interface.
2. To streamline the food preparation and delivery process.
3. Prioritize user data security.

Tools And Technology

Frontend:

- HTML
- CSS
- JSS

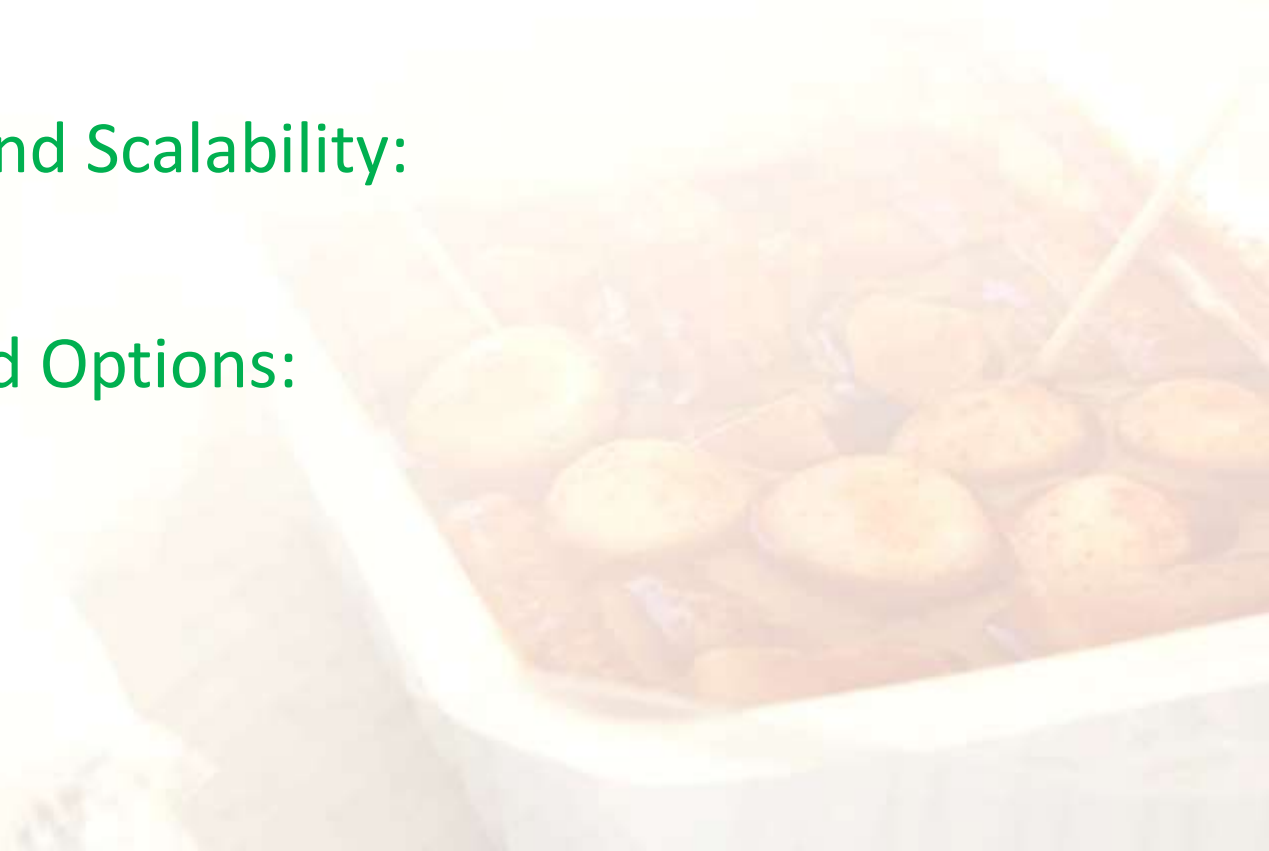

Backend:

- MYSQL
- PHP

Scopes And Features

1. Improving User Experience
2. Cross Platform
3. Performance and Scalability:
4. Expanding Food Options:

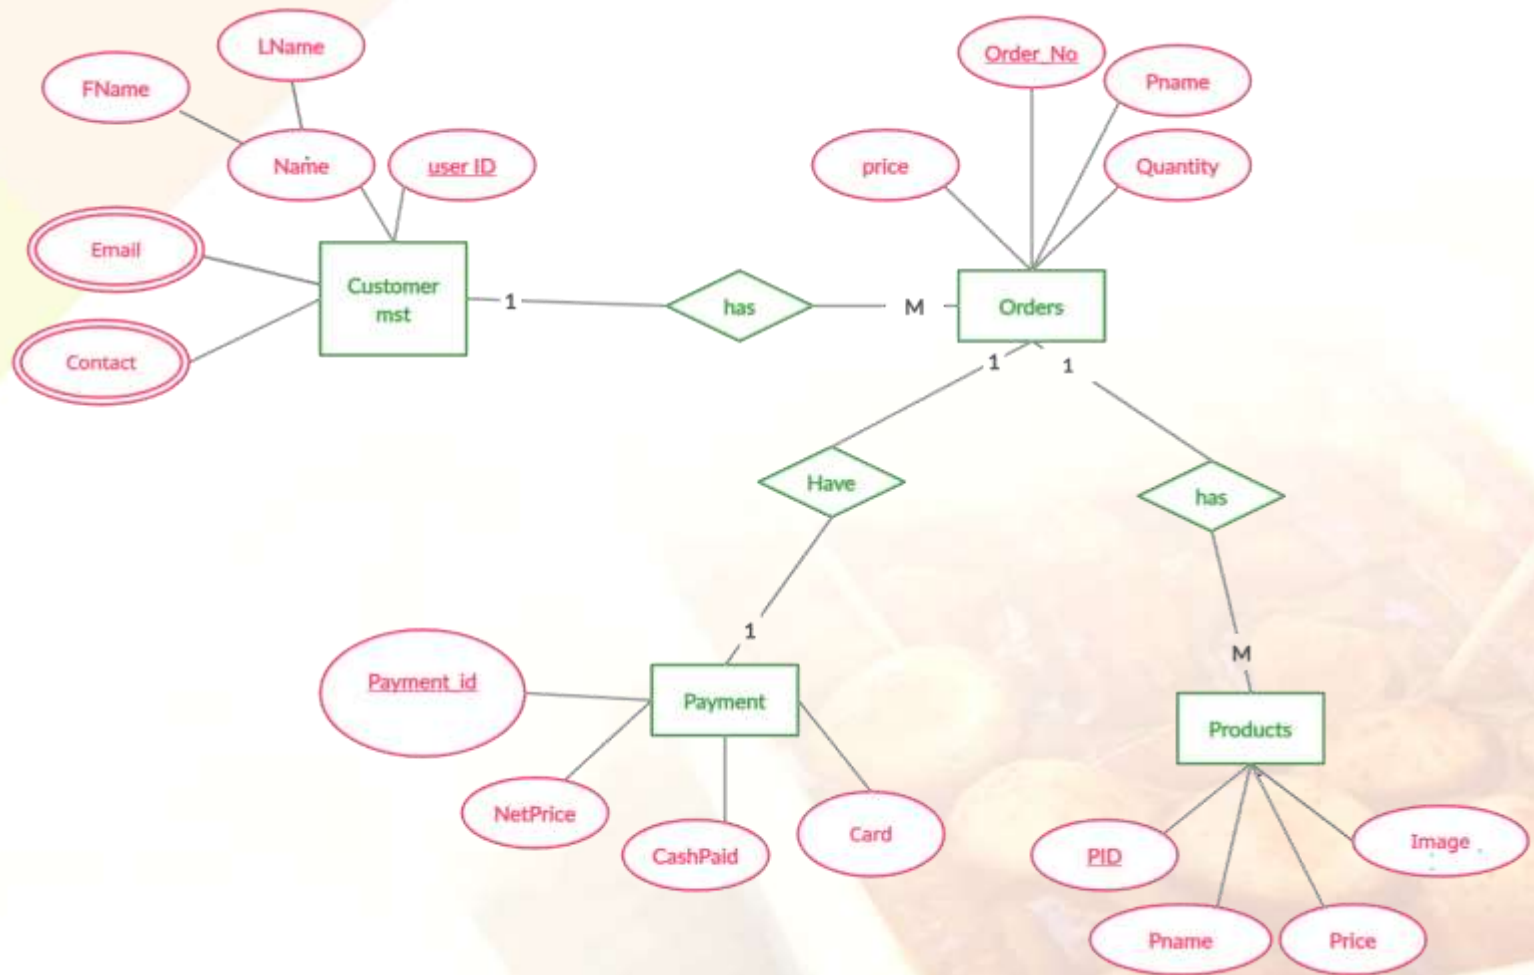

Feasibility Analysis:

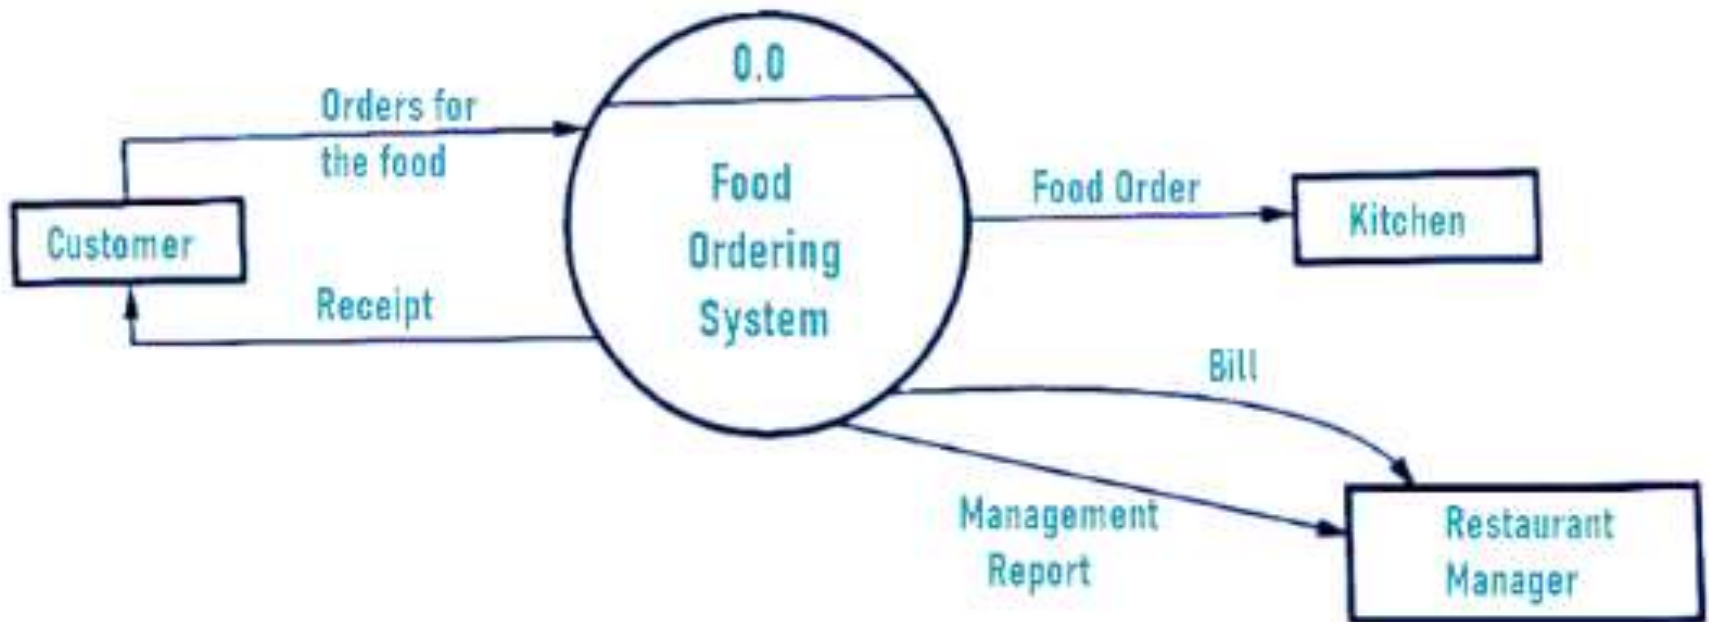

1. Technical Feasibility
2. Operational Feasibility
3. Economic Feasibility
4. Legal Feasibility
